

Dear Parents,

Here is the plan for the first two weeks of remote learning for the second half of the Spring Term. Please do what you can, do not feel pressured to complete everything if there isn't time and contact me on the email below if there are any problems or confusion.

The government have instructed us to provide remote learning contingency plans for you to use with your children at home that match, as closely as possible, the learning sequence happening in school. They expect us to provide you with a mixture of online and offline resources and links to videos designed to support learning. The government also expects us to engage with parents and to allow you to submit work for assessment and feedback.

This plan is designed to provide remote learning for the weeks beginning 22/2/21 and 1/3/21 during the 2nd half of Spring Term.

If you or your child become unwell during this period, please email the school and let us know as we do not expect them to complete remote learning tasks if they are sick or if you are unable to support them. We do understand that this time will be challenging for us all.

Please support your child with their remote learning. Please select three pieces of work (over the 5 days) from different subject areas, for example, a piece of maths, English and art to send to me via email, share with the class on Zoom or share on the school Facebook Remote Learning Thread so that I can see what they have been doing. You might choose to send a word document, a photograph of them working or a screenshot of their finished piece of work. If there are any questions, please do not hesitate to email me.

This planning is for 10 days and reflects topics that would be taught in school. We expect all children to read for at least 20 minutes **every** day and to practise their spellings and times tables regularly. Doodle is a useful way to ensure this is done! In English you will be working on persuasive writing, culminating in writing an advert about your Healthy Snack. There is a well-structured Oak Academy set of lessons to support this and you will have the links to each lesson. I have also included links to Oak Academy for Maths, however if your child is feeling a little videoed out I have included some alternative Maths Mysteries! There will be separate tasks for year 3 (shaded blue) and year 4 (shaded grey). If your year 3 child wants an extra challenge, please feel free to use the year 4 task. If your year 4 child needs a slightly less challenging task, use the year 3 task. If your child is really struggling, please look on the Oak Academy website for alternative lessons from other year groups. Also on the timetable below are the other curriculum subjects; Science, Art, History and Music.

Worship

For those of you wishing to engage in a daily act of worship, please see the collective worship planning in the remote learning section of the school website.

Please do not hesitate to email me if there are any problems.

Wishing you a speedy recovery if you are sick,

Mrs Welch
